

# Cyber Asset Management

Continuously verify the effectiveness of your cybersecurity to enhance your security posture, operational efficiency, and regulatory compliance.

# Making the case

Cyber-attacks are escalating in both frequency and complexity, with global cybercrime costs projected to hit \$10.5 trillion annually by 2025, according to Cybersecurity Ventures' Official Annual Cybercrime Report. This dramatic rise in cyber threats highlights the critical need for comprehensive, proactive cybersecurity measures to protect organizations from increasingly complex and costly attacks.

Modern organizations face a significant challenge in maintaining visibility and control over their cyber assets. Gartner's 2024 report on Attack Surface Management reveals that only 17% of organizations can clearly identify and inventory a majority of their assets, highlighting widespread visibility challenges.

Teneo's Cyber Asset Management simplifies, automates and streamlines these efforts by providing unified asset discovery, continuous monitoring, and on-demand compliance management.

## Our approach

### Strategy

- We understand your security stack and the assets you are protecting.
- Discuss integrating Cyber Asset Management into your security processes.

### Design

- Configure solutions to integrate seamlessly with existing tools.
- Align with compliance and operational needs and regulatory requirements.

### Transition

- Deploy with minimal disruption.
- Train your team for effective usage.

### Operation

- Continuously monitor assets, enforce compliance, and detect risks.
- Provide actionable insights via intuitive dashboards.
- Automate the management of cyber assets to fit with your operational approach.

# Key Benefits

- **Comprehensive Visibility:** Full asset discovery for a complete security overview.
- **Proactive Risk Management:** Address vulnerabilities before they escalate.
- **Automated Compliance:** Simplify adherence to regulatory standards.
- **Cost Efficiency:** Reduce manual processes and optimize resources.
- **Scalability:** Adaptable to evolving business needs.
- **Improved Decision-Making:** Actionable insights via real-time dashboards.
- **Enhanced Security Posture:** Minimize gaps and strengthen defenses.

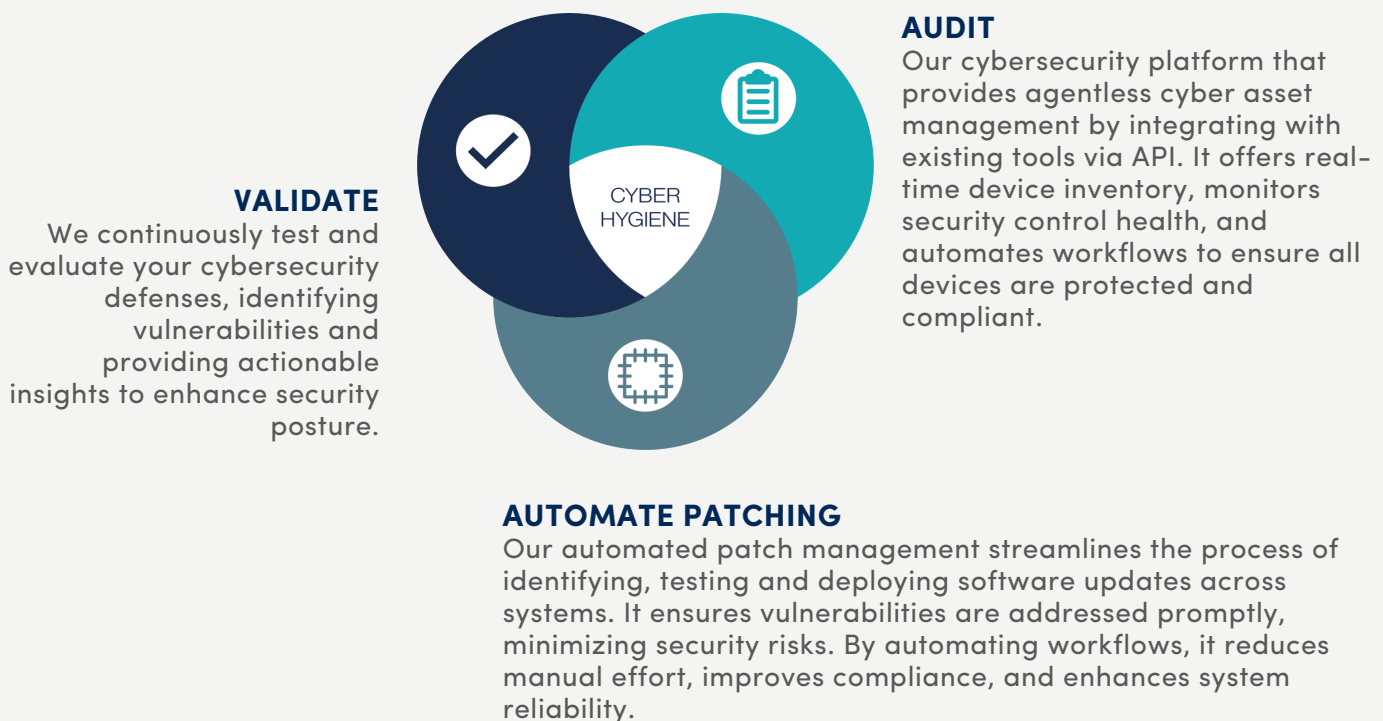

# Teneo's Cyber Hygiene Service

Cyber Asset Management is a core element of our Cyber Hygiene service, designed to help organizations optimize the effectiveness of their cyber defenses. The diagram below illustrates the key elements of this service, with Cyber Asset Management playing a central role in the 'Audit' component.

## TENEO CYBER HYGIENE SERVICE

Maximize the Efficacy of your Cyber Defences

## StreamlineX

As part of Teneo's StreamlineX framework, Cyber Asset Management enhances your organization's security posture by providing comprehensive asset visibility, proactive risk mitigation, and automated compliance. This service integrates seamlessly with other StreamlineX solutions, ensuring holistic optimization and security across your digital ecosystem.
